DISCOUNT SETUP – How to Add and Set Discounts

1. On the main menu, click DISCOUNTING button

2. The Discount Lists form will appear. The lists show the default discounts of the program and the standard discount rates (Zero, Variable, Senior Citizen and PWD). Click ADD button to add new discount.

- The Discount Detail form will appear. The user can create a desired discount by filling out the information needed and may set a SCHEDULE (Date, Day and Time) by checking the corresponding boxes. Click LOCK button to save and CLOSE to go back to Discount Lists.

The screenshot shows the 'Discounting Detail' form in the Liteclerk POS application. The form has a menu bar with 'Menu', 'Setup - Discounting List', and 'Setup - Discounting Detail'. The main area contains several input fields: 'Discount' (with a red arrow pointing to it), 'Discount Rate' (set to 0.00, with a red arrow pointing to it), 'VAT Exempt' (checkbox), 'Date Scheduled' (checkbox), 'Day Scheduled' (checkbox), and 'Time Scheduled' (checkbox). Below these are date and time pickers: 'Date Start' (6/11/2022), 'Date End' (6/11/2022), 'Time Start' (12:18 PM), and 'Time End' (12:18 PM). At the bottom, there are buttons for 'First', 'Previous', 'Next', and 'Last'. The status bar at the very bottom displays 'Terminal: 001', 'Date: 6/11/2022', and 'User: admin'.

- If a specific discount set is no longer applicable just Click Edit button in the Discount Lists form then Click UNLOCK button and then CLOSE. The specified discount will no longer be useable.

CUSTOMER SETUP - How to add customer

- On the main menu, click CUSTOMER button. The Customer Lists form will appear. Click **ADD** button to add new customer.

The screenshot shows the 'Customer List' form in the Liteclerk POS application. The form has a menu bar with 'Menu' and 'Setup - Customer List'. The main area contains a table with the following columns: 'Code', 'Customer', 'Contact No.', 'Address', and 'L'. The table has one row with the following data: 'E20', 'E20000000000', 'Work-00', 'Work-00', and 'S'. At the bottom, there are buttons for 'First', 'Previous', '1/1', 'Next', and 'Last'. The status bar at the very bottom displays 'Terminal: 001', 'Date: 6/11/2022', and 'User: admin'.

- The user will redirect to Customer Detail form. Fill out the information needed and set a Credit Limit in order for the customer to make transactions. Click LOCK button to save and CLOSE.

USER SETUP - How to add User Access Account

- On the main menu, click USER button.

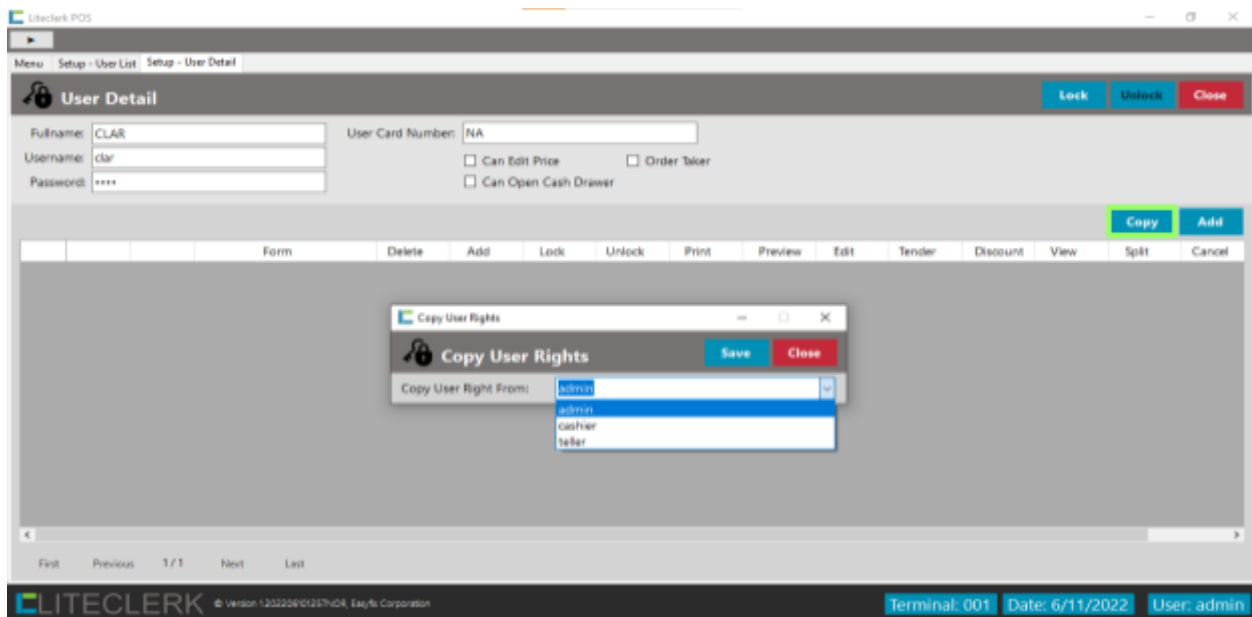

2. User Lists form will appear. The program had existing users (admin, cashier and teller) by default. Click **ADD** button to add a new user.

3. User Detail Form has default values just replace with the new user information.
4. Add User Rights by clicking the **Add** button.
5. "Add button" on click displays User Form Detail. Select specific form that the user can navigate and check what activity a user can perform and then click save.

6. User can only have access to forms that he/she is allowed to access and performs activities based on what the user is authorized to perform within a form or forms. Admin can view, can add, can edit and can delete User Rights.

- Admin may also use **Copy** beside the **Add button**, to copy the rights of an existing user.
- Click the drop down arrow , select a specific user access rights to copy then click Save

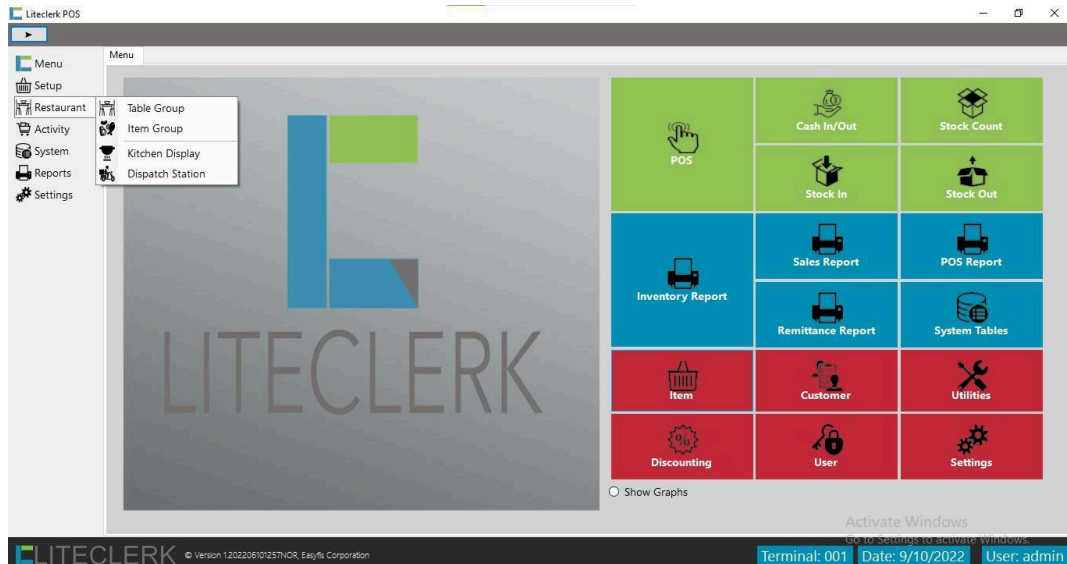

- Lastly, click **LOCK** button to save the information and **CLOSE** to go back to the main menu of the program.

How to set Table group

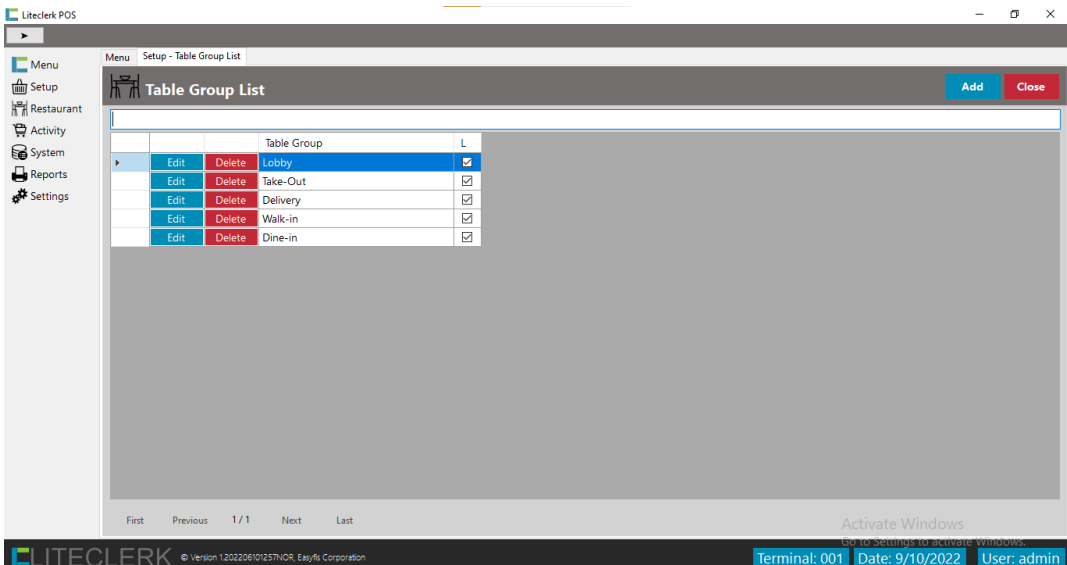

- On the main menu, click this icon  above the word "MENU".

- The hidden functions will appear, click Restaurant button then click table group.

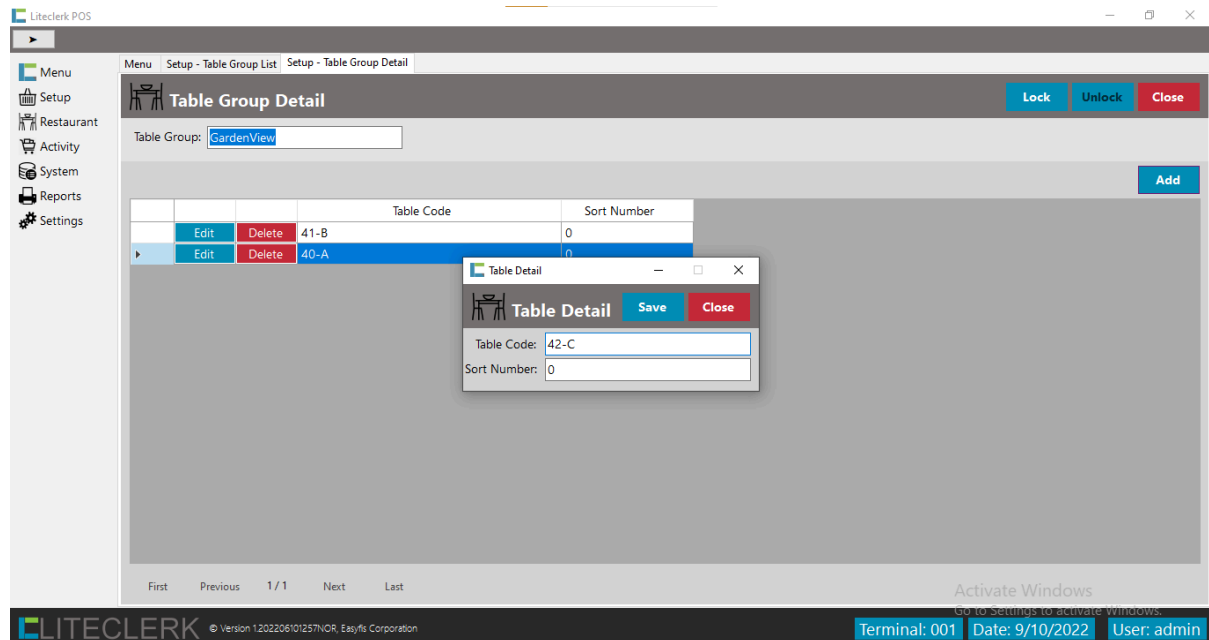

- The Table Group List form will appear. Click **Add** button for additional table group.

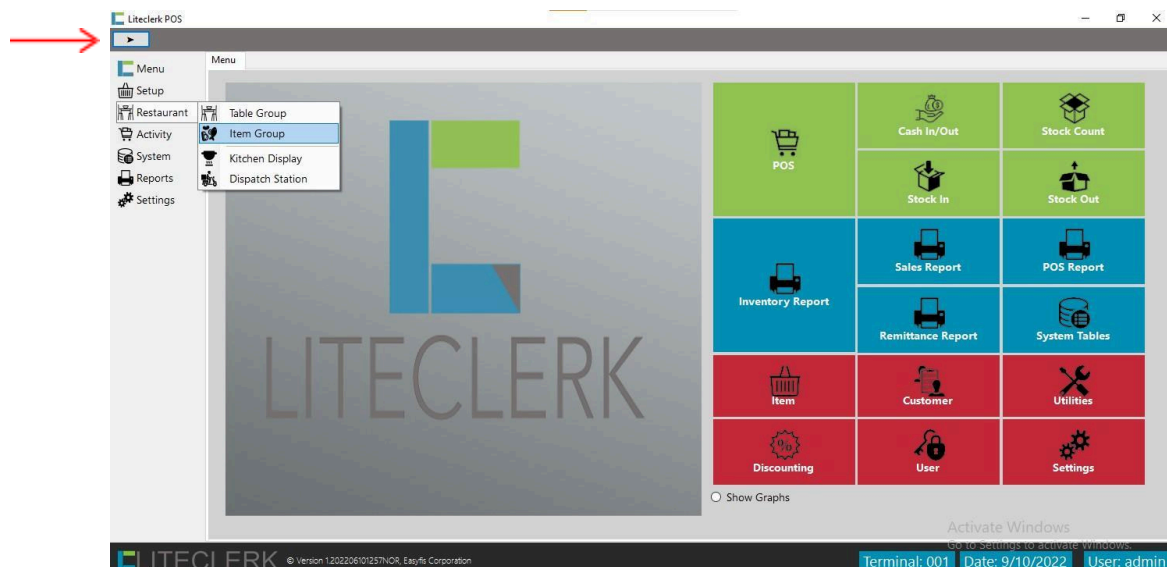

- The Table Group Detail form will show. Input the desired table group name and add table numbers. Click **Lock** button to save and **Close** button back to main menu.

Refer the sample below.

How to set Item group

1. On the main menu, click this icon  above the word "MENU"

2. The hidden functions will appear, click Restaurant button then click **Item group**.

- The Item Group lists form will appear. Click **ADD** button. This form is simply sorting the food (Menu).

CHAPTER 3 – POS Touch Activities

1. On the main menu, click POS button.

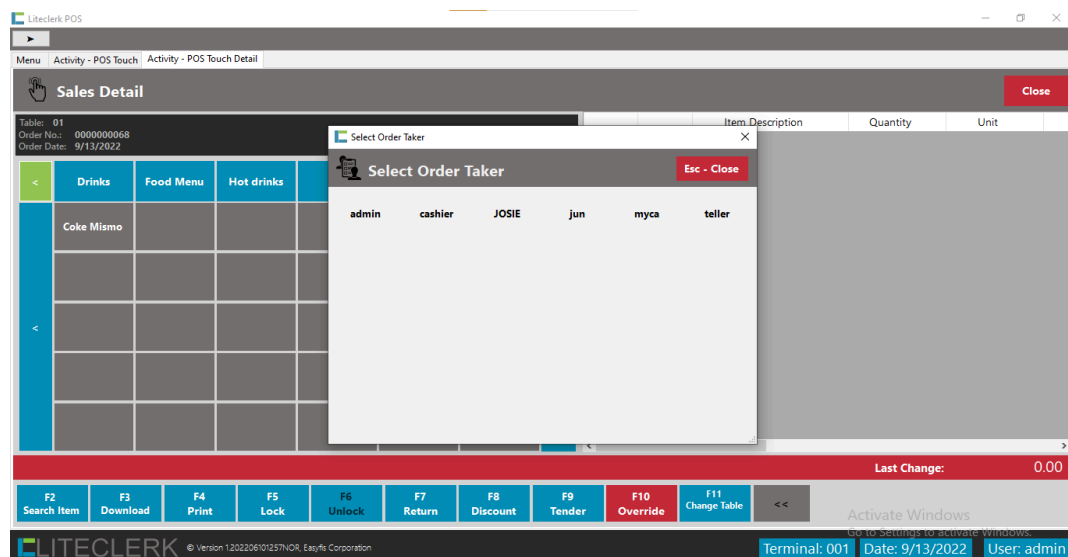

2. "POS button" on click shows Activity POS Touch form.
3. The numbers below are the **Tables**.
4. Click the number and that is how we start the transaction.

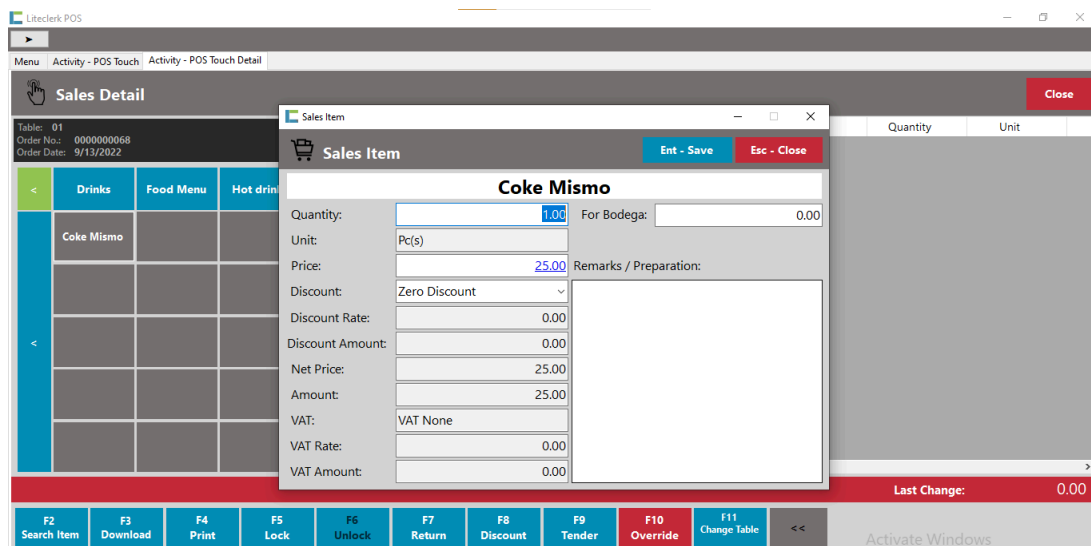

The tabs are identified as the following:

- ✓ **Open** tab – shows the hanging and pending transactions;
- ✓ **Billed Out** tab – reflects the billed out transaction thus user issues a sales invoice for billing;
- ✓ **Collected** tab – shows the tendered and collected transaction

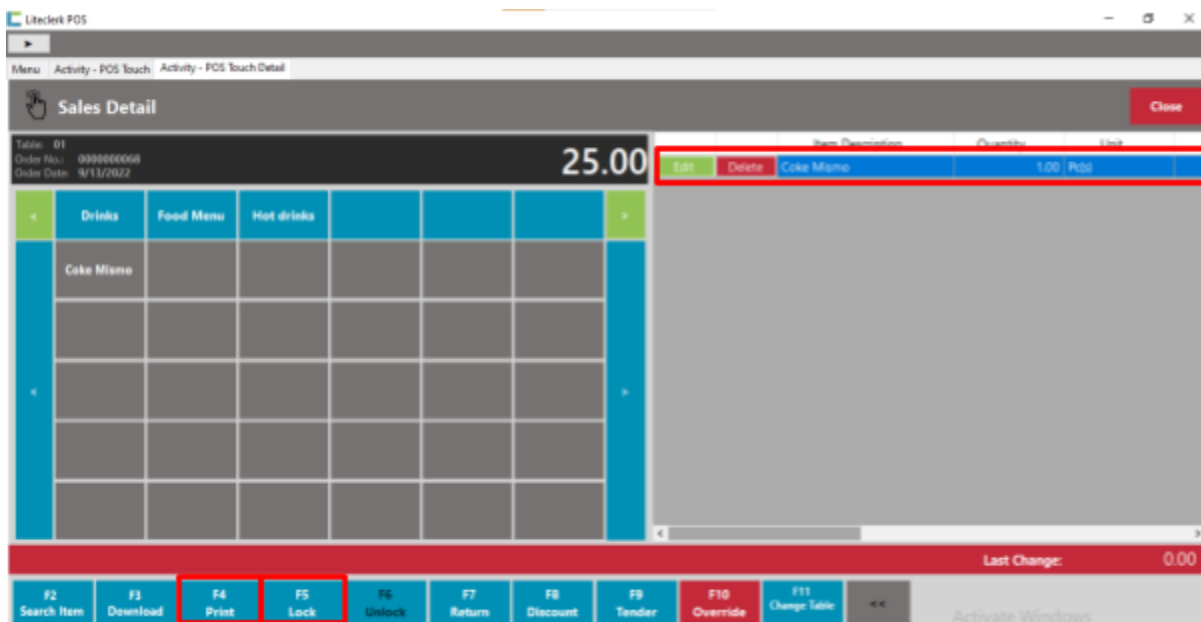

1. After clicking the tables, the POS Touch Detail form will appear.

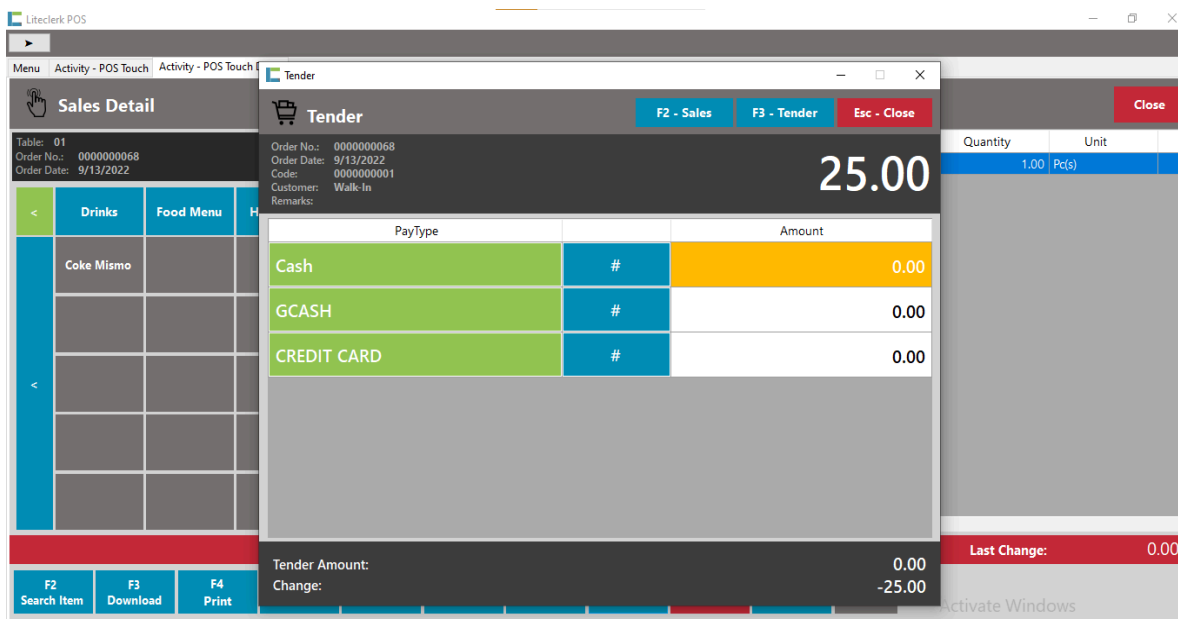

2. Select the Order Taker, then Pick an item/s from the menu, a number pad or quantity pad will pop out.

3. Click a number that specifies the quantity of orders and click **Ent-Save** button.
4. Once the order was taken, click **Lock** then **Print** button to print the Order Slip for the kitchen.

5. Lastly, click **TENDER** button to collect the payment

- After clicking the Tender button at POS Touch Detail, the Collection Detail form will show. Input the cash received from the customer under the **Cash** Pay Type column. If the payment is in credit card type then input the exact amount under the **Credit Card** column.

Note: Make sure to swipe the card first with the client's credit card swiper before collecting the payment using our system.

PayType	Amount
Cash	100.00
GCASH	0.00
CREDIT CARD	0.00

Tender Amount: 0.00
Change: -25.00

- Then click **F3-Tender** to finish the transaction and click **YES** to print the **official receipt**.

Sample OR (Official Receipt)

This is the sample OR (Official Receipt) printout.

How to Discount

1. Within the Sales Detail form click "Discount" or press F6 at the keyboard.
2. Discount form will appear, choose desired Discount by using the drop down arrow to show the Discount lists then click "OK".

The screenshot shows the Liteclerk POS Sales Detail form. The total amount is 22.00. The Discount dialog box is open, showing a list of discount options: Zero Discount, Variable Discount, Senior Citizen Discount, PWD, 5% Discount, and 2% Discount. The 5% Discount is selected. The dialog box also shows fields for Item, Total Amount, Discount, Rate (%), Discount Amount, SC/PWD ID, SC/PWD Name, SC/PWD Age, Pax, and Discounted Pax.

How to Override

1. Within the Sales Detail form click "Override" or press F10 at the keyboard.
2. Input Username and Password then Click LOGIN.
3. The login user will be changed for this transaction only; this is used if User has no access to some rights that is needed in this transaction.

The screenshot shows the Liteclerk POS Sales Detail form. The total amount is 37.00. The Login dialog box is open, showing fields for Username and Password. The dialog box also shows a checkbox for System Date and a date field for Login Date (9/13/2022). The dialog box has buttons for Login, Close, and Change.

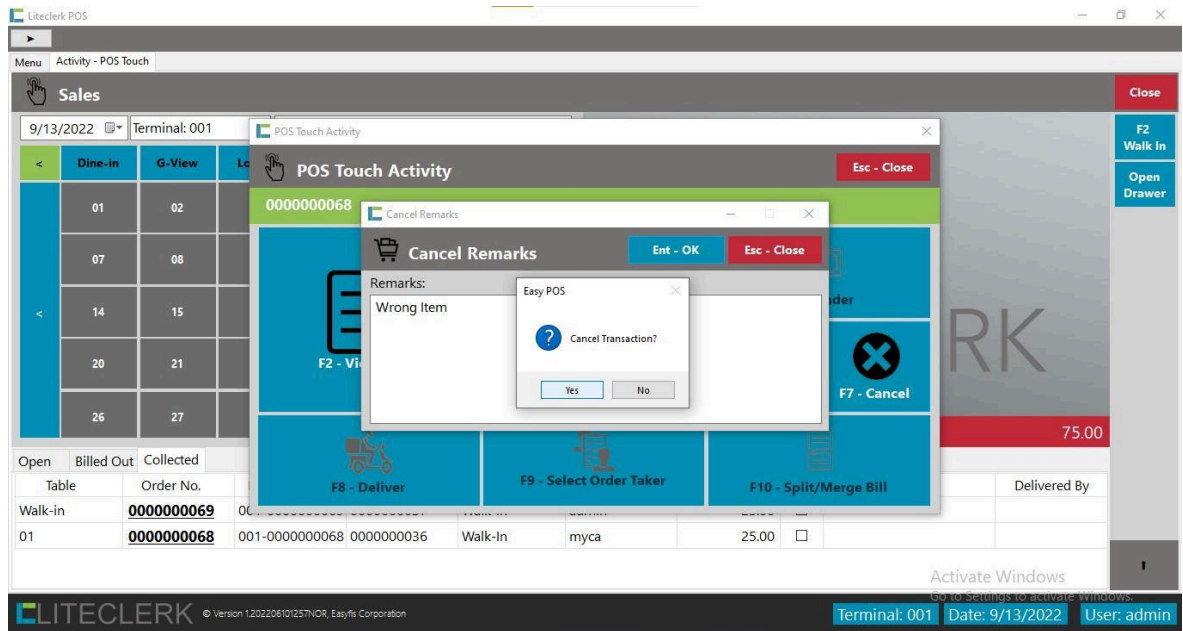

How to void transaction

1. Within the POS Touch form, click the **Collected** Tab.
2. Select a specific Order Number to void.
3. POS Touch Activity form will appear, click the **CANCEL** button.

The screenshot shows the Liteclerk POS interface. At the top, there's a 'Sales' section with a date selector (9/13/2022) and a terminal selector (Terminal: 001). Below this is a grid of buttons for different transaction types: Dine-in, G-View, Lobby, Take-Out, and a numeric keypad (01-31). To the right of the grid is a large 'LITECLERK' logo and a 'Last Change: 75.00' indicator. Below the grid is a table with columns: Open, Billed Out, Collected, Table, Order No., Manual No., Collection No., Customer, User, Amount, C, Remarks, and Delivered By. The table shows two transactions: 'Walk-in' with Order No. 0000000069 and '01' with Order No. 0000000068. At the bottom, there's a status bar with 'LITECLERK', version information, and a footer showing 'Terminal: 001', 'Date: 9/13/2022', and 'User: admin'.

This screenshot shows the same Liteclerk POS interface as the previous one, but with a 'POS Touch Activity' dialog box open. The dialog box has a title bar 'POS Touch Activity' and a close button 'Esc - Close'. It contains a grid of buttons for various actions: F2 - View Order, F3 - Bill Out, F4 - Tender, F5 - Reprint, F6 - Delete, F7 - Cancel, F8 - Deliver, F9 - Select Order Taker, and F10 - Split/Merge Bill. The 'F7 - Cancel' button is highlighted. The background interface remains the same, showing the 'Collected' tab and the transaction table.

- After clicking **CANCEL** button Cancel remarks form box will show, just input any remarks then click **Ent – OK** and lastly click **YES**. The Order number selected will be automatically removed from collected tab.

Cash In /Out Activity

- "Cash In/Out button" on click will show the user to Cash In/Out List Form. It shows the list of all Cash In/Out activities.

2. The list can also be filtered by date and key words.
3. User can also edit, and delete Cash In/Out
4. To add new Cash In/Out, click the "Add button".

Adding Cash In

1. For the first shift of cashier and to input an initial deposit to the cash drawer, change the Type to DEBIT.
2. Denominate the amount; the system will automatically calculate the amount denomination and fill out the remarks. Click LOCK to save the data.
3. Then, click Print Button to print the cash in report.
4. Cashier may now proceed to POS transaction.

Adding Cash Out / Remittances

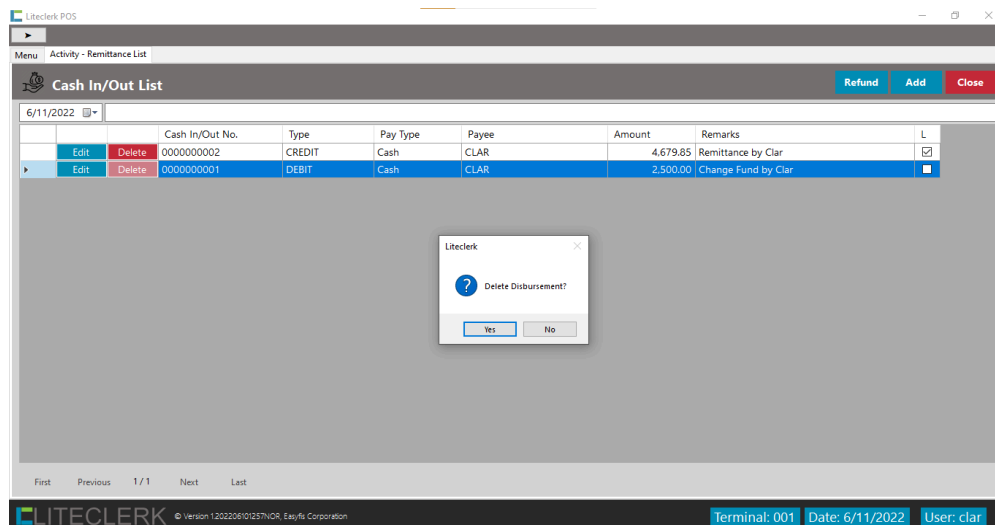

1. For the cashier's end of shift like sales remittances, add new and change the Type to CREDIT.
2. Denominate the Amount pertaining to cash at the cash drawer and fill out the remarks. The system will automatically calculate the amount denomination.
3. Click Print Button to print the cash out / remittance report.
4. And click CLOSE button back to the main menu.

Editing Cash In/Out

1. Click Edit Button to the Cash In/Out No. that you wish to update.
2. Locked Cash In/Out cannot be updated, so you need to unlock first to update, then click Lock to save changes.

Deleting Cash In/Out

1. Click Delete button to delete selected Cash In/Out.
2. Locked Cash In/Out cannot be deleted, so you need to unlock first then click close and YES to save changes.
3. Once the Cash In/Out No. is Unlocked, click Delete then click YES to delete.
